

Learn all about the exciting new RocketTheme exclusive modules that are included in the **Equinox** template release. Here you can find instructions for installation and configuration for each of the custom modules.

Video Tutorial Currently Available!

[Launch the Joomla Template Module Installation Video Tutorial now!](#) *(Requires Flash)* **Step One: Installing the Module**

- Download the **equinox_extensions_j15.zip** archive from the **Equinox** download section of the RocketTheme Joomla! Club. Unzip the archive, inside you will find individual zip files for each of the modules.

- Login in to your administrator console on your Joomla! website and navigate to the **Extensions** menu item, and select **Install/Uninstall** from the dropdown menu.

- In the **Upload Package File** section, click the **Choose File** button and select one of the **mod_modulename.zip** that was inside of the zip file you downloaded earlier. Next click the **Upload File & Install** button to install the module.

Step Two: Publishing the Module

- Now the module is installed it must be published in the appropriate module position and configured to suit our needs. From the top menu, select **Extensions** then **Module Manager**.

- This will take you to the **Site Module Manager** which allows you to configure the placement and configuration of all modules in your Joomla! website.

- Locate the module from the list. Remember there could be a few pages. Once you have found it, you can publish in 2 ways: The first is selecting the cross next to the tile or clicking the title then set **Enabled** to **Yes** followed by a Save.

- [Navigating to the Modules](#)

In the Joomla Administrator, go to **Extensions** and then **Module Manager**. This will bring up a list of all of the installed modules. Find the module name in the list and click on the title to go to the Module configuration.

- [Configuring RokSlide](#)

In the Module configuration, set the following options to mimic the demo:- **Show Title:** No - The module header will not be visible.
